

PROPOSED COURSE OFFERING SCHEDULE

This schedule is offered as a planning tool to help as you select your courses each semester. It describes the **proposed** schedule for offering second- and third-year elective courses and seminars in the School of Law curriculum. The schedule describes the availability for law school classes contemplated at the time the list was compiled. However, due to exigencies such as changing student demand, professorial leaves, and the addition of new faculty, this schedule may be modified. Therefore, check with the professor and with the registrar's office to confirm whether a class will be offered in a given semester.
