## EMPLOYMENT

**1996-  
present**

***Licensing Attorney.***

Provide clients with comprehensive business and legal guidance in managing their technology and intellectual property, including providing assistance in the development, acquisition, protection, use and commercialization of technologies and accompanying intellectual property rights worldwide. Prepare term sheets, conduct negotiations and draft agreements for complex licensing, development, distribution, outsourcing and strategic partnership transactions. Provide counsel regarding copyright, patent, trade secret and trademark litigation and risk avoidance issues. Provide counsel and prepare agreements regarding employee inventions, consultant services, non-competes and non-disclosures. Represent a range of clients in every stage of development, from privately-held, emerging start-ups to high-profile, multi-billion dollar, publicly-held companies, in a variety of industries, including software companies, application service providers, e-commerce companies, systems integrators, business process outsourcers, and electronics, optics, telecommunications, medical device and biotechnology companies. Also have negotiated terms and prepared documents for venture-backed financings, public financings, mergers and acquisitions, equity incentive plans and employment agreements.
